\$3,529,200,000 Tax Bill Introduced in House by Leaders

Approval by Week-End Predicted Despite Fight Threats

BULLETIN
Washington, July 29—(AP)—The House refused today to approve the compromise form of legislation which would authorize the president to take over industrial plants when interruptions of production hampered or delayed the defense program.

The measure including provision for deferment from the draft of men 28 years old and more, was returned to a conference committee, composed of senators and representatives, on motion of Rep. Healey (D-Mass.).

The vote was announced as 255 to 114.

The House instructed its conferees to insist on the house amendments, which changed the form of the plant seizure provisions as contained in the original senate bill.

Washington, July 29—(AP)—Administration leaders marshaled their forces to get the \$3,529,200,000 tax bill to the House floor today under rarely-used parliamentary procedure designed to curtail strictly the number of possible amendments.

Although critics denounced the method as a "gag rule", indications were that it would be sanctioned by the House, and that the bill would be approved and sent to the Senate, possibly Friday, in virtually the form recommended by the House ways and means committee.

The rule would authorize three days of debate and bar all amendments but those sanctioned by the ways and means group.

Imposing the heaviest individual and corporation income taxes in the nation's history, the revenue measure would bring federal tax collections during the year ending next June 30 to \$11,302,000,000.

Ways and means committee experts estimated that although the new levies would produce only about \$1,900,000,000 during the remainder of the current fiscal year, they and the existing taxes would yield about 60 per cent of anticipated government expenditures during the first full year of operation.

Drastic Surtaxes
As recommended to the House, the bill would put individual incomes for about \$1,152,000,000 additional annually through a drastic system of surtaxes starting at

Navy Making Mass Test of Anti-Flu Vaccine in West

San Diego, Calif., July 29—(AP)—A new anti-influenza vaccine—described as perhaps the most promising that has come to the attention of medical scientists—is being tested on several thousand U. S. sailors in a mass experiment under supervision.

Through this vaccine, doctors hope to wipe out the deadly disease which in recurring epidemics, has proven to be a more ruthless killer than war itself. In 1918 influenza swept the world and killed an estimated 30,000,000 persons.

Bluejackets inoculated in the mass test are stationed at San Diego and in the San Francisco Bay area.

"We won't know finally what may be expected from the vaccine until an actual epidemic comes along," said Commander Albert Paul Krueger, bacteriologist directing the experiment.

First Test of Kind

"This is the first mass vaccine test of its kind," said Dr. Krueger. "Our investigations were made possible through discovery in 1923 that influenza was a virus disease, and isolation of the virus."

"To show the great importance of stamping out this disease, it is well to recall that in the world war there were 550,000 men in the navy. One out of every four caught influenza. Some ships actually were disabled by illness. Army figures on the same epidemic were colossal."

Dr. Krueger said vaccine was derived from a relatively simple process. Influenza serum is introduced into chick embryo. Resulting fluid is inactivated with a solution of formaldehyde and the final solution is used for the inoculation.

Inseparable

Chicago, July 29—(AP)—Steve Major, Jr., 11, was run over by a locomotive and tender but he was alive today to tell about it.

The youth was standing on the tracks yesterday when the slowly moving engine struck him from behind. Steve flattened down between the rails and the locomotive passed over him, leaving him frightened but uninjured except for a scratch or two.

When he sat up he still was clutching a bottle of pop he had in his hand when the choo-choo came along.

Ickes' Ultimatum Delivered East Coast Motorists

New York, July 29—(AP)—A moderate rationing plan for gasoline and oil among eastern motorists, to be imposed by the federal government immediately after Labor Day, Sept. 1, was forecast today by certain well-informed oil men.

This forecast followed a statement by Harold L. Ickes, petroleum coordinator, that unless motorists voluntarily cut down on their gasoline use government action to curtail consumption might be expected. He indicated the government's decision would be made within two weeks.

The New York oil men said one of the first curtailment plans likely to be adopted would be the closing of filling stations 12 hours a day—from 7 p. m. to 7 a. m.

Such a program, they said, would cut down on "casual" night motoring and would, incidentally, bring home to motorists, who thus far have considered the impending eastern gasoline shortage something remote, some idea of the seriousness of the situation brought about by the transfer to the British of tankers which formerly supplied the east.

The 12-hour closing period, incidentally, would ease the labor situation at filling stations which have been losing hundreds of attendants to defense industries.

Another aspect of the rationing plan, it was predicted, would be to allot certain amounts of gasoline and oil to all distributors each month, then leave it up to the distributors to see to it that motorists did not overbuy.

In any event, it was suggested, no rationing other than voluntary was expected until after the vacation season ended.

Uncle Sam Relents: Pola Negri Welcomed

New York, July 29—(AP)—Pola Negri, glamorous Polish star of the silent screen, is back in the United States today with Uncle Sam's blessing as a permanent resident.

When the 41-year-old former actress arrived yesterday on the American Export liner Excalibur she was taken to Ellis Island because her permit to enter the country had expired.

Granted an immediate hearing, she explained that she did not know her five-year-old permit required annual renewal. The immigration authorities ruled in her favor.

Unruly Negro Wards of State Sent to Prison

Geneva, Ill., July 29—(AP)—Seven Chicago negro girls were in the state reformatory for women at Dwight today and an eighth was in the Kane county jail for barricading themselves in a room at the State Training School for Girls Sunday.

All eight pleaded guilty in County court yesterday to charges of malicious mischief and were sentenced to one-year terms. They said the locked themselves in the room in protest against removal of outside recreation facilities.

Mammoth Army Bakery to Turn Out 225,000 Pounds of Bread Daily

New Orleans, July 29—(AP)—An army bakery that will provide bread for the half million troops in the gigantic late summer maneuvers in Louisiana today began turning out on a mass scale specially "cured" loaves that will stay edible for two weeks.

Today's schedule called for enough bread for 22,000 soldiers. The production will be stepped up until the bakery, working around the clock seven days a week, is turning out 225,000 pounds of bread every 24 hours.

Eleven hundred soldier-bakers from six southern army camps have been brought here to produce the bread, which is baked in 112 kerosene ovens in a 500-foot long shed at Jackson Barracks.

Berlin Press Says F. D. R. Engineered Affair in Bolivia

Charges Expulsion of German Minister on "Falsified" Note

Berlin, July 29—(AP)—The German government has sent notes to all South American governments declaring that the Belmonte note figuring in the expulsion of the German minister from Bolivia was "falsified", the well-informed Dienst aus Deutschland said today.

The authoritative comment service said that "one can conclude that the Wilhelmstrasse called the attention of the remaining South American governments to the clarification in connection with the Belmonte case and to remember it if a somewhat similar situation should face them".

(The German foreign office protested to Bolivia yesterday against the "falsification" in the crudest manner possible" of a letter which purported to be from Major Elias Belmonte Pabon, Bolivian military and air attaché who has been dismissed by his government on a charge of treason, to Ernst Wendler, German minister who was expelled from La Paz in measures against an asserted nazi putsch plot. The Major also denied yesterday that he had written the letter or maintained revolutionary relations with the minister.)

This development came as authorized German sources expressed belief that the Dies committee of the United States House of Representatives was responsible for the action of an Argentine congressional investigation committee in having German diplomatic pouches seized.

Says U. S. Seeks Friction
The Dienst, which is close to the Wilhelmstrasse, declared that Berlin obviously is convinced that "the Belmonte case is only one link of attempts on the part of responsible quarters in the United States to bring about friction between the axis powers and the South American people by such methods".

The Dienst said documents in Berlin showed that "the United States, by creation of such a poisonous atmosphere, anticipated that South American powers

Rockford Schools to Shorten Term

Rockford, Ill., July 29—(AP)—Rockford city schools, faced with a \$198,000 deficit in the educational fund, will be open for only 32 weeks in the 1941-1942 term, six weeks less than usual.

The shortened school year was ordered last night by the board of education in a move designed to offset at least some of the deficit by closing the schools from November 7, 1941, to January 5, 1942. This action, the board said, would save \$135,000 in salaries and \$15,000 in maintenance costs. All employees, including teachers, will be affected.

The board, in a resolution, said the step was necessitated by Governor Dwight Green's veto of house bills which would have empowered taxing officials to levy a tax rate of \$1.75 for each \$100 of assessed valuation without a voters' referendum.

The present rate for educational purposes is \$1.50 and in previous elections Rockford voters have refused to boost the levy.

In addition to the educational fund levy, the school district has a 50-cent building rate and 13 cents for retirement of bonds sold to meet deficits incurred in the last two years—\$159,000 in 1939 and \$122,000 in 1940.

officer at the barracks, said the bakery is larger than any unit set up on European battlefields. The first shipment of bread baked today will be shipped out August 5 since the loaves will need 24 to 48 hours of "curing" after the baking and cooling is completed.

When the half billion soldiers begin their maneuvering through central Louisiana in September in the greatest war games ever held in America the bread will be shipped to them in the field.

Officers said the first loaves baked in the huge kitchen were two-pound garrison loaves but soon would be supplanted by "field" loaves which are circular rather than oblong and are about twice the size of garrison loaves.

Embarrassing

Santa Monica, Calif., July 29—(AP)—Police Chief C. E. Webb was irritated when prisoners' money began disappearing from the department safe—it happened four times.

It was embarrassing, too, when someone stole an automobile belonging to the city jailer. That's George Webb—the chief's brother.

Well, \$5,500 vanished from the police department safe this week end. A department store put it there—for safe-keeping.

Police are investigating.

Death Toll Mounts to Nearly 300 as Midlands Swelter

Rising Air Pressure in Northwest Will Bring Relief

(By The Associated Press)
A definite break in the death-producing humid heat wave was forecast today by the Chicago weather bureau.

Forecaster G. L. Canaday said barometric pressure was rising in Canada, North Dakota and extreme northwestern Minnesota. As this "high" develops, he explained, it will expand in size and send cooling breezes into the sweltering midlands. Accompanying showers were likely.

A drop in temperature of 15 to 20 degrees was expected in the Dakotas and Minnesota today, and similar relief progressing slowly over the rest of the north central district tonight, tomorrow and tomorrow night.

In Chicago Tomorrow

Canaday said cooler weather should reach the Chicago area tomorrow night. It will move on eastward through the Ohio valley Thursday or Friday.

Today it was slightly cooler in the Dakotas, Nebraska and northwestern Minnesota but the 90-plus weather remained in the rest of the Plains states, west Gulf states and from there eastward except in New England.

Morning weather bureau reports showed that areas in New York state and Pennsylvania which were cooled by showers yesterday were warming up again.

273 Lives Taken

The season's worst hot spell has taken 273 lives, 137 by heat prostration and 136 by drowning.

Nine northern states had readings above 100 yesterday, 106 at Ft. Madison, Ia., being tops. St. Louis and Sigourney, Ia., had 102; Wichita, Kan., Springfield, O., Seymour, Ind., and Philadelphia, Pa., Washington, Cincinnati, Springfield, Ill., Bismarck, N. D., Huron, S. D., and Kansas City, Mo., 100.

Twenty-six heat prostrations in the national capital area were reported as the mercury hit the century mark.

Some Storms in East

University of Iowa students and Iowa City residents escaped near 100 degree heat last night by jamming the school's Memorial Union, one of two air-conditioned buildings on the campus.

At the same time storms were cooling some of the east. A brief sharp wind and rain storm lashed northern New York where a man was killed in a collapsing barn and many buildings were damaged by falling trees.

In New York City the rain forced the temperature down ten degrees to 72.

An electrical storm that started more than 20 fires in Philadelphia cooled eastern Pennsylvania.

Rain in Ohio cut the temperature from 95 to 74 in Cleveland and from 100 to 67 in Canton.

With 98 Chicago sweltered through its hottest July 28 in history, a degree warmer than on that date in 1916.

Minnesota led in heat deaths with 29. Illinois had 21 and New York 14. In drownings, Michigan led with 26. Wisconsin had 13 and Ohio and Illinois 11 each.

The Weather

TUESDAY, JULY 29, 1941

(By The Associated Press)

Chicago and Vicinity: Present intense heat wave will break by Thursday morning. Partly cloudy and continued warm and humid this afternoon, tonight, and Wednesday, with an occasional thundershower, becoming cooler Wednesday night; highest temperature today 98-100, lowest tonight 76 to 78, highest Wednesday near 95; light to moderate southwesterly winds.

Illinois: Continued warm and humid tonight and Wednesday, becoming cooler Wednesday night and northwest Wednesday; partly cloudy with scattered thundershowers.

EXTENDED FORECAST

Chicago, July 29—(AP)—Extended weather forecast for the period from 6:30 p. m. in July 29 to 6:30 p. m. Aug. 2 (C. S. T.) 1. **Upper Mississippi Valley:** Temperatures averaging above normal. Intense heat wave now in progress except in Minnesota, breaking beginning of period in Iowa and on Thursday in Illinois and Indiana, with falling tendency first half of period. Occasional showers and thundershowers beginning and middle of period, averaging moderate to locally heavy.

LOCAL WEATHER

For the 24 hours ending at 7 a. m. today: maximum temperature 98, minimum 75; clear.

Wednesday: sun rises at 4:56, sets at 7:15.

After 37 Years

Detroit, July 29—(AP)—Magnus Olson, alias Big Jim Norton, western bank robber who is fighting extradition to Illinois, was arraigned on a fugitive warrant before Detroit police today.

Olson is wanted by the state of Illinois, police said, in connection with an escape he made from a reformatory at Pontiac, Ill., 37 years ago. Gov. Murray D. Van Wagoner will consider the case Aug. 4.

At one time a member of the famed "Grass Lake Mob" which operated through Ohio, Olson has served seven prison sentences since he first fled from the Pontiac reform school at the age of 17. He participated in the robbery of banks in Arizona, Nevada, Utah and California.

Washington Plans No New Moves Regarding Japan

Washington, July 29—(AP)—Despite Japanese hints of new far-reaching developments in the Orient, White House supporters in the senate today urged that the administration hold unwaveringly to the policy it has adopted in the Far East.

Senator Lee (D-Okla.) told reporters that "economically, I think we ought to hit Japan with all we've got. Militarily, we ought not to back up an inch. Politically, the people will support such a policy."

In a similar vein, Senator Pepper (D-Fla.) asserted that "now is the time to let Tokyo know whether we mean business. Tokyo, unhappily, knows no language except force."

The state department, meanwhile, silently followed the course of Far Eastern events, both in Indo China, where Japanese occupation was reported under way, and in Shanghai, where Japanese intentions regarding the International Settlement continued uncertain.

No New Action Planned

In line with its practice, the department had nothing to say about statements appearing in the controlled Japanese press that far reaching consequences might follow the action of the Netherlands East Indies in cutting off oil exports, breaking off a monetary agreement and freezing commerce with Japan.

These statements held that the Dutch colonial government was "in league with the United States and Britain" in economic warfare against Japan.

The state department, however, indicated that, barring new developments, no additional action against Japan was planned.

From Senator Hill (D-Ala.), the administration whip, came a prediction that Japan "will make no new moves in the south Pacific until she can evaluate the result of the German-Russian war and until she can ascertain how seriously American economic restrictions may affect her."

Without a dissent, the senate approved.

Billion Deficit Is Totalled in 26 Days

Washington, July 29—(AP)—A report in defense spending rolled up a \$1,000,000,000 deficit in the first 26 days of the new fiscal year which began this month.

The treasury reported today that in the 26 days it spent \$1,386,475,550 and took in \$351,205,514, creating a deficit of \$1,035,269,836.

More than half the spending, or \$795,021,904, was for defense. At this rate, the full month total for defense may run well past \$900,000,000. The June total was \$807,508,470.

The \$1,000,000,000 deficit, however, was due to be matched in most of the other 11 months of the fiscal year. Even with the pending new tax bill, the budget bureau expects a deficit for the year of more than \$10,000,000,000.

Consolidation of Post Exchanges at Camp Forrest Has Been Delayed

Camp Forrest, Tenn., July 29—(AP)—Consolidation of the two post commanders, announced the department, ordered recently by the war department, has been deferred until Nov. 1 to prevent disruption of their services during the August and September maneuvers.

Maj. Gen. Samuel T. Lawton, post commander, announced the delay. He said all efforts would be centered on providing shopping facilities to the troops in the field rather than handicap them with the necessary details of reorganization.

The war department has ordered all post exchanges in camps throughout the country to be placed under centralized controls immediately.

At Camp Forrest, each regiment in camp has a post exchange,

Nazis Breaking, Soviet Command Claim for Day

The War Today!

BY DEWITT MACKENZIE
(Telegraph Special Service)

One of the grim aspects of the great conflict in the Russian theater, which today's reports indicate is continuing with fierce intensity but without much change in position, is that it has developed into a savage and primitive battle of extermination which is costing the lives of untold thousands.

The nazis early announced and frequently emphasized complete destruction of the Red army and its primary objective. The matter presumably was publicized by Berlin for the purpose of breaking bolshevist morale, but for once nazi propaganda—which has been uniformly clever in this war—seems to have gone wrong. Somebody overlooked the fact that there were few announcements likely to make the Reds fight harder.

The Muscovites instead of quitting have accepted the German gage and responded in kind to the Hitlerian methods of liquidation. The result, as I pointed out yesterday, is an altogether bloody business of the survival of the fittest.

But there is another issue in this terrible battle of millions which far transcends the ordinary stakes of war. That is, which of the two regimes, nazism or communism, is to survive.

The Hitlerites haven't limited their objectives to the obliteration of the Red Army. They say they will destroy the communist regime also. As witnesses their statement a few days ago that "there will be no soviet union at the end of this war, and there will not be any bolshevist regime which created this union of soviet states."

To this threat the Muscovites haven't replied in words. We do have what serves for an answer from wholly different quarters. Acting Secretary of State Welles declared that "there can be no peace until the Hitler government of Germany has been finally and utterly destroyed". The echoes British Premier Churchill's historic line:

"We seek to beat the life and soul out of Hitler and Hitlerism—that alone!"

Now if two and two do make four—if Hitler is bent on destroying the communist regime and if the allies are determined to beat the soul out of the nazi regime—one is forced to the conclusion that either the communist or the nazi government is on the way out.

There is strong likelihood that this is indeed the position—that one of these governments will disappear with the war's end. The death of either would, of course, represent a world-rocking development. Still it strikes me that interlocked with this is another question of even greater moment than the life or death of a regime. That is what is to be the fate of the people whose government has been destroyed.

Are they to be permitted the free choice of another government for themselves, or in their nation's name to be punished, perhaps by being dismembered? In other words, are the people to be held equally responsible with their governments and suffer the same fate of being smashed?

I raise this question because these days one hears many, bitter suggestions that extreme measures be applied to certain belligerent peoples in order to crush them so they cannot again engage in war.

The outbreak of the conflict produced declarations like that of British Premier Chamberlain, who said in a broadcast to Germany: "In this war we are not fighting against you, the German people, for whom we have no bitter

German Report Sinking 19 Vessels

(By The Associated Press)

German U-boats stepping up the fury of their attacks in the battle of the Atlantic were reported today to have sunk 19 British ships totalling 116,500 tons yesterday and last night in a raid on a trans-Atlantic convoy.

Authorized quarters in Berlin said the nazi undersea raiders also sank a destroyer and a corvette protecting the convoy—presumably loaded with United States war materials for England.

On the Russo-German war front, dispatches from Moscow said Red army counter-attacks had spread to all major sections in one of the greatest battles of all time, and it was declared officially that Adolf Hitler's 38-day-old drives toward Moscow and Kiev were "breaking against the firmness and stubbornness of our troops".

Hitler's high command asserted that the Red armies in the south had been thrown back from the Bessarabia "buffer state" into the Ukraine, and it gave this picture of action on the vital central front:

"The enemy's power groups which were overrun in the course of our break-through of the Stalin line in the direction of Smolensk now have been virtually wiped out."

The nazi communique reported that the last encircled Russian troops "eastward of Smolensk" were facing annihilation and that a great number of prisoners would be reported in a few days as a result of "this tremendous battle of destruction".

Midwest Farm Boys to Demonstrate at Hog Show and Sale

Event Will Be Staged at Chicago Stock Yards Sept. 4-5

Farm youths of the midwest will demonstrate their skill in hog raising at the 2nd annual Chicago Junior Market Hog Show and Sale, to be held in the International Amphitheatre at the Chicago Stock Yards September 4 and 5.

Any boy or girl who is a member of an approved vocational agricultural or 4-H club is eligible to exhibit barrows in this event, the purpose of which is to encourage the production of market hogs of desirable weight and quality by young people on midwest farms.

The show will be staged under the sponsorship of the United Stock Yard & Transit Company, operators of the Chicago market, with 4-H and vocational agricultural leaders, as well as U. S. D. A. officials, cooperating.

According to Dr. J. M. Handley, Chicago Stock Yard veterinarian, who is superintendent of the show and sale, the contest will feature seven classes in which 78 cash prizes will be paid to winning exhibitors.

Show in Three Classes

The hogs will be shown in three weight classes for both individual entries and pens consisting of three each, with a seventh class for pens of five hogs coming within any one of the three weight classes. The weight divisions are for hogs weighing 180 to 200 pounds, 200 pounds to 240 pounds, and 240 to 270 pounds.

Five of the swine breed associations offer bonus prizes on winning hogs that are representatives of the following breeds: Poland China, Duroc Jersey, Hampshire, O. I. C., and Tamworth.

Entries will be accepted up to August 28, and judging will begin at 11 a. m. Chicago daylight saving time on September 4, all entries to be in place by 8:30 that morning. The only cost to the exhibitor will be the regular market charges for yardage, feed, and commission.

Top prize-winners will be sold at auction and the remainder will be sold to packer buyers through the commission agencies to which the boys consign their hogs. Packer hog buyers on the Chicago market will act as judges.

The program will include a live hog grading and carcass demonstration, a trip through the Chicago market, and the packing plants, and a dinner to be given for all exhibitors in the Stock Yard Inn by the sponsors of the show.

A new feature this year will be a demonstration of hog grading by the boys themselves, in which all participants will be eligible to take part. Show officials announce that prizes will also be awarded in this event.

Grant Park Guernseys Leads Illinois Assn.

Champaign, Ill., July 29.—(AP)—Five grade Guernsey cows owned by Elwyn Bradley of Grant Park averaged 75.9 pounds of butterfat during June, the best mark since Illinois Dairy Herd Improvement Associations started a food-defense program in April. Bradley's cows topped the best May mark by 5.6 pounds.

Moultrie county had the best producing association in June, averaging 38.1 pounds compared with a state average of 30.

Weekly Commodity Review

Courtesy of Wayne Hummer & Co. of Chicago

There has been no truce in the war between farm leaders in Congress and the OPACS over the question of price ceilings for agricultural products but, on the contrary, the dispute has been intensified. Cotton Belt Senators have announced that they will present resolutions to prohibit any attempt to fix prices on farm products either directly or indirectly until Congress has passed authorizing legislation and also to prevent release of any Government cotton loan stocks by the CCC unless specifically ordered by Congress. The House has passed and sent to the Senate a bill to modify marketing conditions under the wheat quota law, and a bill has been introduced to provide quota control for the potato crop. The Secretary of Agriculture has already proclaimed the necessity of a wheat marketing quota for the 1942 crop, on the ground that a carry-over estimated at 640 million bushels and a normal crop on the reduced allotment of 55,000,000 acres for the next year, will necessitate application of the quota law. Trading in copper futures has been suspended and the hide and rubber markets are barely animated, because of Government restrictions. The Department of Agriculture and its subsidiary corporations control huge stocks of cotton, grain, land and meats which are being withheld from market to sustain prices, while OPACS is making every effort to keep prices from advancing.

Wheat

It is interesting to note that after declining from 3½ to 5 cents during the previous week, prices have advanced steadily throughout the current week, regaining all the lost ground and closing practically unchanged as compared with two weeks ago. The only conclusion which we can draw is that the conflicting influences of an unparalleled bearish statistical situation, and the power of the United States Government to support prices regardless of the supply and demand picture, are about evenly balanced. Trade interest has centered more on the problem of finding storage space for wheat on which farmers wish to secure a loan, than on any possible minor changes in the final yield of this year's crops, as the latter will at the worst, be so large as to create an unmanageable surplus. This probably accounts for the indifference shown by the trade to a special Government report on the four spring wheat states, showing an increase of 22 million bushels as compared with the estimate of July 1. Recognizing this fact and apparently endeavoring to curtail production next year the Secretary of Agriculture has, as noted above, already proclaimed a marketing quota for 1942, subject, of course, to approval in a referendum vote of the farmers.

As loans may be made only upon wheat stored in elevators or in approved bins on farms, and then only after the wheat has been in such bins for at least thirty days, the producer is in an unfortunate position which may necessitate the marketing of much more wheat than he had originally intended to sell. Accumulations on track at winter wheat markets have been fairly well cleaned up but the spring wheat terminals have already been conditionally embargoed before the new crop has really started to move. A severe heat wave extending over the entire spring wheat area has undoubtedly reduced prospects to some extent. A similar condition in Canada, where the plant was in an earlier and more susceptible stage, has done more extensive damage, but there have been no responsible estimates as to probable yield, because official acreage figures led by the larger chain bakers, followed by smaller bakers and the family trade apparently of a hand to mouth character, suggesting lack of reserve stocks. As offerings of free wheat in the cash market have not been sufficient to offset these flour sales, mills have been compelled to enter the futures market on a fairly liberal scale and their buying has furnished the chief support.

Corn

The crop has made unusually rapid growth and conditions have

ONLY A FRACTION

been ideal until this week, when the heat wave caused some concern because a large proportion of the crop is just in the tasseling and silking stage. Country marketing has continued of small volume, in spite of which fact the cash basis has been weak. No. 2 Yellow quoted tonight at 1¼ to 2 cents under September and July contracts expired at a full 2 cent discount. Sales of Government corn by the CCC from January 29 to July 17 were reported at 56 million bushels but at that date the Corporation still owned 194 million bushels, but the amount under loan from the 1941 crop is now less than 94 million bushels.

An interesting transaction was the purchase on Thursday of 50,000 bushels to arrive new crop corn for November shipment. New crop delivering loan price selling at substantially above a new crop loan relationship as based on current parity figures the loan price would be between 70 and 71 cents, a full 10 cents under the price of May contracts. The desperate condition existing in Argentina was demonstrated by official announcement that the Grain Board was selling corn to railroads for fuel at a price equal to about 4 cents a bushel.

Government's Farm Program Has Paper Profit of Millions

Can't Be Realized as Selling of Surplus Would Upset Price

Chicago, July 29.—(AP)—The war-time advance in grain prices has given Uncle Sam and cooperating farmers a paper profit on ever-normal granary supplies accumulated since 1938 which trade statistics indicated today may exceed \$50,000,000.

This profit, however, could not be realized immediately under present market conditions because selling would upset prices. It represents an inventory appreciation as a result of higher prices attributed partly to the government's own program involving sharply elevated loan rates on new crops and partly to increasing domestic and foreign demand for live-stock products that result from feed consumption.

The government owns approximately 370,000,000 bushels of wheat, corn and rye while producers own approximately 340,000,000 bushels of wheat, corn, barley and rye stored under federal loans now mostly below prevailing market prices. This grain, an aggregate of slightly more than 710,000,000 bushels, was accumulated when prices were lower than loan rates. In addition since early in the year the government has sold 55,000,000 bushels of corn defaulted to it while producers have redeemed and sold at a profit almost as much as 1940 wheat.

Much Corn Under Seal

Although the difference between current market prices for this grain and original loan rates does not represent the actual inventory profit accrued, due to deductions that must be made for storage, carrying and handling charges and in many cases differentials due to freight, the following comparisons give some idea of what has occurred:

The government owns approximately 174,000,000 bushels of 1940 wheat on which the original loan, basis Chicago, was 81 cents a bushel. The present price is around \$1.05. Producers still have under seal about 49,000,000 bushels, after redeeming almost 7,000,000 bushels of 1939 and almost 55,000,000 bushels of 1940 wheat.

The government owns about 202,000,000 bushels of corn on which the original loan at the farm was around 57 cents. On June 15 the farm price was around 68 cents and there since has been a gain. Producers still have under seal about 93,000,000 bushels of 1940 corn on which the original loan rate was 61 cents at the farm, after having redeemed almost 10,000,000 bushels since the first of the year. In addition they have almost 194,000,000 bushels of 1938 and 1939 corn under seal which had an original loan value of 57 cents.

Years' Lamb Crop Biggest Recorded

Washington, July 29.—(AP)—The agriculture department reported today the 1941 lamb crop was the largest on record, totaling 34,549,000 head, an increase of five per cent over the previous record crop of 1940 and 13 per cent more than the ten-year period from 1930-39 average.

The increase over 1940 was largely in the west north central states. The department said the rather sharp increase over last year was a result of an increase in the number of breeding ewes and a record percentage of lambs saved. The crop in the 13 western sheep states was placed at 22,723,000 head. The number in the so-called native states—those east of the Rockies and Texas—was reported at 11,826,000 head.

The department's estimate by states of the 1940 and 1941 lamb crops, respectively, included: Indiana 564,000 and 604,000; Illinois 547,000 and 588,000; Wisconsin 309,000 and 310,000; Iowa 1,083,000 and 1,454,000; Missouri 1,144,000 and 1,216,000.

Ogle County Farm Bureau News Notes During Past Week

The winning live stock judging team in the Ogle county 4-H club contest this year is from the Rock River club of Byron led by D. A. Parish, agriculture teacher of Byron high school. Members of the team are Donald Ashelford, Dale Hasselton, and Earl Morningstar. Their total score was 936 points. Placing second is the team from the Oregon 4-H club led by A. R. Schick, Oregon agriculture teacher, composed of Gene Schier, Carl Myers, and Allen Burd with a total score of 899 points. Highest scoring individual in the contest was Gene Schier with 340 points. Second place was a tie between Donald Ashelford and Dale Hasselton with scores of 326. The champion team of the county will be entitled to represent Ogle county in the state 4-H live stock judging contest at Urbana on August 25. Five clubs, including the Rock River 4-H, the Forester Boosters, Jolly Juniors, Oregon 4-H, and Stillman Hustlers, each competed in the contest. Teams were composed of three boys enrolled in live stock projects. The judging was done last Saturday on a number of farms in the community of Stillman Valley.

Yields of the oats varieties harvested on the N. F. Thomas farm operated by Robert Fridley were checked by Farm Advisor D. E. Warren last Friday and he reports the yields of the different varieties as follows: Burt, 38 bushels per acre and test weight 27.2 pounds per bushel; Boone, 59.6 bushels per acre, test weight, 33; Gopher, 59.4 bushels, test weight, 25; Marion, 56.8 bushels, test weight, 35; Columbia, 45.9 bushels, test weight, 25; Vanguard, 48.2 bushels, test weight, 24; Legacy, 36.9 bushels, test weight, 21; Fridley's Iowa, 46.2 bushels, test weight, 27. These varieties were sown in strips seven feet wide, side by side, for comparison of yield and characteristics of growth. Among the highest yielding varieties were Boone, Gopher, and Marion. The best quality according to test weight was found in Marion, Columbia and Boone. The varieties that withstood lodging best were Vanguard, Boone, and Marion.

The Ogle county rural chorus of the Farm Bureau and home bureau song on the Mount Morris band concert program last Saturday evening directed by L. D. Pfaff and accompanied by Mrs. Pauline Grant of Polo. The group will appear again at Lindenwood church Saturday evening, August 2, using several mixed chorus numbers that have been prepared for use at the state fair when the Ogle county chorus will join with choruses from several other counties to form the Illinois rural chorus which is sponsored by the Illinois Extension Service.

Chemical Science Is Aiding Farmer

Chicago—"When farm animals are starved it's easy to see them get thinner and thinner, but when the soil is starved the wasting away process isn't so noticeable," says a statement of the Middle West Soil Improvement Committee.

"If crop returns are poor, unfavorable weather can often be blamed. Thus the real reason for declining soil fertility is frequently overlooked.

"No soil contains an inexhaustible reservoir of plant foods. Constant cropping steadily reduces the fertility level. Unless a replenishment program is undertaken, the soil will become deficient in one or all of the three major feeding elements—nitrogen, phosphorus and potash.

"In such a situation the important thing a farmer must know and do is to carry the right kind of plant food to his crops, apply it in adequate quantities and avoid waste. The soil must be considered just as seriously as the crop because the fertilizer should perform the two-fold job of nourishing the crop and helping maintain the productivity of the soil as well.

"The farmer's job of aiding both his soil and his crops is being made simpler by chemical science, which is providing nitrogen, phosphorus and potash at a cost level more in keeping with which he produces than practically any other commodity he buys today."

Farming Is Dangerous Accident Figures Show

Such expressions as "down on the farm safe from harm" and "the peace and quiet and safety of pastoral life" look well in poems, but they are actually untrue, according to the department of safety of the Illinois Agricultural Association.

Statistics, the department says, show that the farm is more dangerous than the factory. Last year, for example, no less than 4,500 farmers were killed while carrying on regular farm operations. Notwithstanding the speed-up in defense production, this was a greater accident toll than that which cursed any other general industry.

No one cause is responsible for this dreary record, the IAA department reports. Tractors, livestock, haying and harvesting activities all took substantial bites out of the ranks of those charged with the responsibility of feeding America.

"With scarcity of farm labor forcing the women folks and the too young and too old males into farming activities, the situation will probably grow worse before it becomes better," warns C. M. Seagraves, IAA safety director. "Now more than at any other time vigilance and good sense will be needed on every farm to forestall the occurrence of a work tragedy. It's a wise person who knows his own limitations and a wiser one who heeds them."

IAA Farm Bureau to Have Tent at State Fair, Aug. 9

Recognizing that often what a visitor to the state fair appreciates most is a comfortable place to rest for a few minutes, the committee in charge of the IAA-Farm Bureau tent at the state fair, Springfield, Aug. 9-16, has decided to install a number of fans.

Long established as a service center offering ice water, checking facilities, tables and chairs and a meeting place for Farm Bureau people, friends and relatives, all at no charge, the IAA-state fair committee announces that this year it will have a battery of fans of sufficient capacity in the tent to cool the visitors but still not whiff fresh spring chicken, watermelon pickles, and bread and butter sandwiches from the tables.

The location of the tent will be the same as in former years, which is just north of the administration and service buildings, and the committee promises the hearty welcome and courtesy which has typified this rendezvous for farm folks in the past.

Friday, Aug. 15 will be Farm Bureau Day at the fair and many of the IAA officials and staff will be present at the IAA tent for "Open House."

FRANK PRIEBE'S WEEKLY LETTER to POULTRY RAISERS

A letter came this week from a produce dealer in London.

I think you might be interested, as I was, in what he had to say about the food situation over there.

"Last February," he wrote, "my wife had two oranges and two weeks ago I had the pleasure of taking her six oranges. Where they were found I do not know. We have one onion left from last year's stock, but fortunately we have a fine crop of onions, tomatoes, and other vegetables coming along. There will be very little fruit, however. Bread is not rationed and we manage to push along with our small allowance of meat, butter, tea, etc. There is no grumbling. People just take these things as they are and are very cheerful and very optimistic. There is not the least shadow of the breaking of the morale of the British public."

Food is essential to morale, of course.

And while every letter from

England expresses their appreciation of the Lease-Lend Act, I doubt if the average Englishman—any more than the average American—realizes what enormous quantities of food we are sending to England under the provisions of that act.

Chickens Now a Basic Crop

The FSCC is buying shell eggs, frozen eggs, and dried eggs.

If I've added correctly, they have bought, already this year, 1875 carloads of shell eggs; 60½ million pounds of frozen eggs—which, in the shell, would be about 4595 carloads; and over a million pounds of dried eggs—which, in the shell, would be about 1548 carloads.

That adds up to over eight thousand CARLOADS of eggs!

And the Admiral who once said, "We've only just begun to fight!" had nothing on these government egg buyers who have only begun to buy!

Those 6 million pounds of dried eggs may look like a lot, but they have already said they're going to buy 100 million pounds before they're through! Egg drying plants are springing up like mushrooms all over the country. That yellow powder looks better to producers today than gold dust did in '49.

The government has put poultry

try and eggs into "big-time" agriculture. And it's all happened so suddenly I don't think most of us realize it yet.

Chickens, which have always been regarded as a side-line in this part of the country, are now recognized by the government as a basic crop! And Uncle Sam is the biggest "butter-and-egg man" in the world.

Sincerely yours,

Frank Pribe

Eva Johnson Has Garden Wedding at Walnut Home

The garden at the home of Mr. and Mrs. Wayne T. Johnson of Walnut made a pretty setting for the mid-summer wedding of the Johnsons' eldest daughter, Eva Blanche, and Aurell Burkey, son of the Lee Burkeys of Walnut, on Friday evening. The single ring ceremony was read by the Rev. S. A. Birdsall, pastor of the Manlius United Brethren church, before a white trellis, screened with flowers and evergreens.

Miss Lorna Johnson was her sister's maid of honor, and Willard Burkey served his brother as best man. Carolyn Johnson, the bride's young sister, was flower girl.

Preceding the ceremony, Miss Evelyn Gutschalk, Sheffield, sang two solos, "I Love You Truly" and "Because." During the ceremony, she sang soft strains of "Leibestraum," with Miss Louise Jordan of Oak Park playing her accompaniments. Ned Lewis and Leo Brandau were ushers.

The bride's floor-length gown of white French voile was designed on princess lines with a deep flounce. A white lace cap held her veil in place, and she carried pink roses, blue delphinium, and baby's breath in an arm bouquet. Her diamond was an heirloom in the bridegroom's family, having been worn by Mr. Burkey's grandmother, Mrs. Sarah Reeder, and she carried the wedding handkerchief of her grandmother, Mrs. Melvin Carey of Ohio.

Her sister was gowned in pink organdy, with white trim, and carried yellow roses with blue larkspur and baby's breath. The little flower girl chose blue organdy and carried yellow rose petals in her basket.

The bride's mother was dressed in pale green, and Mrs. Lee Burkey was attired in dusty pink. Multi-colored sweet peas formed their shoulder corsages.

After the ceremony, a buffet supper was served to 70 guests at the Johnson home. Mrs. Carl Milliken of Freeport poured, assisted by Verna Lee Ward of Van Orin and Elinor Glaze of Walnut. The centerpiece on the table was a three-tiered cake.

When Mr. and Mrs. Burkey left on a brief wedding trip to Wisconsin, the bride was dressed in black sheer, with touches of white. They will return to Walnut to reside.

Mrs. Burkey was graduated from Walnut Community high school with the class of '40, and has been attending Northern Illinois State Teachers college at DeKalb. The bridegroom was a graduate of Walnut high school in 1936, and is employed by the GHB-way housing firm in Walnut.

Out of town guests were present from Rockford, Buckley, Chicago, Davenport, and Lamolite.

Entertain for Mrs. Otis Burns

Another in the series of post-nuptial courtesies which have been given recently for Mrs. Otis Burns, the former Miss Olive Boos, was a variety shower arranged last evening by Mrs. William Smith and Mrs. Walter Krug. Fifteen friends of the recent bride were invited to the Loveland Community House, where tables were formed for bridge games.

Mrs. Clyde Taylor and the honoree shared honors at the card tables. A variety shower awaited Mrs. Burns.

In the party were Mrs. Clyde Taylor, Mrs. Donald Bush, Mrs. Vernon Rhodes, Mrs. Charles Hamill, Mrs. John W. Mills, Mrs. Bert Whitcomb, Mrs. Lee Rintoul, Mrs. Robert Shippert, Mrs. Eugene Lebre, Mrs. Paul Joynt, Mrs. A. Tarnawski, Mrs. Ralph Newman, Miss Helen Parker, Miss Evelyn Roberts, Mrs. Burns, and the hostesses.

On Friday evening, Mrs. John W. Mills and Mrs. Bert Whitcomb were entertaining nine guests at a performance of "Aaron Slick from Punkin Crick" by the Grand Detour Players, with Mrs. Burns as guest of honor. After the show, refreshments were served at the Mills home, and a gift of crystal was presented to the honoree.

MISSOURI GUESTS

Mrs. Grover C. Moss and her two grandsons, Carson Moss, Jr., and Mason Moss, returned to their homes in Nevada, Mo., on Sunday, after visiting since Tuesday with Dr. and Mrs. Grover Moss of Grand Detour. Dr. Z. W. Moss of this city joined the party one evening last week to help celebrate the birthday anniversaries of Mrs. Grover C. Moss and her son.

CHORAL INSTITUTE

Mrs. R. A. Joslyn was in Evanston last week, attending a Church and Choral Institute at Northwestern university. She directs the choir of the First Presbyterian church.

Directs Players

Lawrence Carra

Mr. Carra, director of the summer theater at Frances Shimer college in Mt. Carroll, will move his players and props to the Loveland Community House in Dixon on Thursday evening for an 8 o'clock performance of "Fresh Fields," Ivor Novello's three-act comedy.

The show will be a benefit for the Women's association of the First Presbyterian church, of which the Rev. Herbert J. Doran is pastor. Mrs. George W. Lindquist heads the committee on arrangements.

During the college year, Mr. Carra is director of the Experimental Theater of the University of Texas. On Friday evening, his summer theater players will present two one-act plays by Noel Coward and "variety acts" at the Frances Shimer summer theater in Mt. Carroll. The shows will include "Red Peppers," "Hands Across the Sea," and a "Singing Waiter" and a "Dancing Maiden" act in old-fashioned vaudeville style.

HILLER FAMILY HOLDS REUNION AT GRAND DETOUR

Witmer and family, Mr. and Mrs. Harry Witmer and family, Mr. and Mrs. Ruben Winebrenner and daughter, Mr. and Mrs. Earl Winebrenner, Mr. and Mrs. Jack Ruppert and family, Mrs. George Shugars, Donna Kelly, Mr. and Mrs. Charles Winebrenner, Dixon.

Mr. and Mrs. Roy Hess, Chicago; George Hiller, Columbus Junction; Mr. and Mrs. Charles Weaver, Polo; Mr. and Mrs. John Bell, Nashville, Tenn.; Mr. and Mrs. William Winebrenner, and Mrs. French of Grand Detour.

FIRST ANNIVERSARY

Roger David Wade, son of the H. D. Wades, celebrated his first birthday anniversary on Friday at an afternoon lawn party arranged by his mother. Balloons and balls were favors.

A birthday lunch of ice cream, birthday cake and candy was served to 16 children and their mothers. Guests included Mary and Sune Adams, Jack and Joe Bally, Barbara Jean Wade, Ronnie Stephens, Billy Keeney, Barbara Ann Fordham, Bobbie Clapper, Patty and Neal Huff, Katherine Skeffington, Marilyn Huyett, Sandra Dodd, and Jane Harting of Sterling, their mothers, Rogers' grandmother, Mrs. E. W. Pope, Mrs. Harry Wade of Sterling, Mrs. Kenneth Nicklaus, and Mrs. A. Hollenbeck.

MINNESOTA GUESTS

With the Frank Browns of Grand Detour for a mid-summer visit of a week or ten days are Mr. Brown's brother-in-law and sister, the Ray Colwells of South St. Paul, Minn., their son, Raymond, and their grandson Richard Brown.

HEPPER-MILLER

Mr. and Mrs. Albert Potts of 419 Highland avenue are announcing the marriage of their daughter, Mrs. Avis Miller, to Clifford Hepper of Rock Island, which was solemnized at Canton, Mo., on Saturday, July 26.

Dorothy Johnson, Harold Sipe, Wed; Motoring Eastward

Mr. and Mrs. H. J. Johnson of Oregon are announcing the marriage of their daughter, Dorothy, to Harold R. Sipe, son of the Earl Sipes of Kings. The couple exchanged nuptial vows at 2 p. m. Sunday at the parsonage of St. Paul's Lutheran church in Oregon, before the Rev. J. E. Dale.

Miss Eloise Johnson was maid of honor for her sister, and Paul Hayenga served as best man.

For her wedding, Miss Johnson wore a suit of aqua blue crepe, with trapunto trim, white accessories, and a shoulder corsage of gardenias. Her sister chose American rose crepe with white accessories, with a spray of gardenias and pink rosebuds at her shoulder. The bride's "something old" was a gold and garnet pendant worn by her mother as a bride, 25 years ago.

A reception was held at the Johnson home near Oregon for members of the bridal pair's immediate families. Table appointments and flowers were in pink and white.

Following the reception, Mr. Sipe and his bride left on a week's motor trip through the east, planning to include Niagara Falls and Canada on their itinerary. For traveling, Mrs. Sipe chose a dark blue sheer redingote ensemble with white accessories. After their return, the couple will be at home in their newly-furnished apartment at Kings.

The bride was graduated from Oregon high school with the class of 1939, and has been employed as clerk for the Sterling Cleaners in the Mississippi hotel at Oregon. Mr. Sipe, a graduate of Rochelle high school in 1935, is associated in business with his father at Sipes' Corners, east of Kings.

Music Festival Is Announced

Nearly 1,000 ambitious young singers and instrumentalists, representing a dozen cities throughout Iowa and Illinois, will gather in Soule stadium in East Moline, Sunday evening, for the fourth annual Mississippi Valley music festival.

The roster of talent, composed of the finest young artists in the Mississippi Valley area, will include bands and chorus groups, vocal soloists and baton twirlers, who will compete for honors in their respective divisions in contests to be held throughout the day, and the right to represent the Mississippi Valley district at the Chicago and music festival at Soldier's Field, Chicago, on Aug. 16.

The festival concert will feature Lanny Ross, popular young radio tenor, the Frank Bennett Singers of Chicago, a championship team of flag and baton twirlers, and little Miss Sonja Gamburg, 10-year-old piano virtuoso, of Chicago.

Reserved tickets may be obtained from the festival committee, of which Dr. F. E. Bollaert is general chairman.

MISS JOAN KILLIAN WINS AT CLINTON

Miss Joan Killian of Sterling won first place with her three-gaited show horse, Mahogany Miss, in the three-gaited combination class at a horse show in Clinton, Iowa on Sunday. In the open three-gaited show class, Miss Killian placed third with the same three-year-old.

On Wednesday and Thursday evenings, Miss Killian, who is well known in Dixon, will show two horses at a horse show in Lafayette, Ill.

SUNDAY GUESTS

Mr. and Mrs. Arthur Lockwood and Mr. and Mrs. Junior Lockwood of Chicago were Sunday guests of Mrs. Onie Alexander and W. W. Wooley. A picnic was held in Lowell park, honoring the Chicagoans.

Dixonite's Bride

Mrs. Ralph Shank

Before her marriage Saturday afternoon, Mrs. Shank was Miss Miriam Ebersole of Sterling. The couple exchanged their wedding vows at the home of the bride's father, Roy H. Ebersole, in Sterling, and after an eastern wedding trip, will be at home on a farm, north of Prairieville.

AT NANTUCKET

By tomorrow, Mrs. John G. Ralston and her two daughters, Joan and Lucile, will probably be arriving at their summer home on Nantucket, where they expect to remain until early autumn. They left "Reynoldswood" on Friday, and planned to visit friends en route east.

Large Company Honors Couple on Fiftieth Year

Approximately 150 relatives, friends and neighbors assembled at the Church of the Brethren on Sunday afternoon to honor Mr. and Mrs. Walter Brown of 414 Monroe avenue on the occasion of the couple's golden wedding anniversary. A 1 o'clock picnic dinner was followed by a program.

Mr. and Mrs. Brown were accompanied to the altar by Mr. and Mrs. Ralph Barnhart, when they renewed their marriage vows of half a century ago. Their pastor, Rev. William E. Thompson, performed the ceremony. Mrs. David Wade soloist, sang "I Love You Truly."

Afterward, a short program was presented, including: Solo, "A Little Light," Mary Mercer, a great-granddaughter of the couple; piano trio, "The Golden Wedding," Mrs. Russell Jones, Mrs. Howard Emmert, and daughter Charlotte; reading, Eldon Myers; quartet, "When They Ring Dem Golden Bells," Krug sisters; solo, "I Love You," Mrs. Russell Jones; reading, Mrs. Charles Butterbaugh.

At the conclusion of the program, the Browns treated their guests to refreshments of cake and ice cream. A purse of \$10 was presented to the couple from those attending the celebration, they received a floor lamp from

Royal Neighbors, and there were many other gifts.

Mr. and Mrs. Brown have resided in Dixon ever since their marriage. Their out of town guests on Sunday included:

BEAT THE HEAT

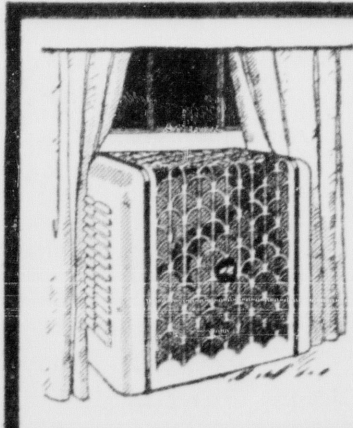

ATTIC VENTILATION DOES IT!

An economical attic fan will drive out that daytime heat and bring the cool, fresh night air right into your home! Your house will be cooled down to outside temperatures and comfortable sleep will be yours!

Fanning the air is not enough to cool things off—it takes the cooler outside air, flowing long enough, and in sufficient quantities, to remove the stored-up daytime heat from the walls and furniture. In this way, your house really becomes cool, and remains comfortable the next day. A properly installed attic ventilating fan, turned on at sundown, will do this job of beating the heat.

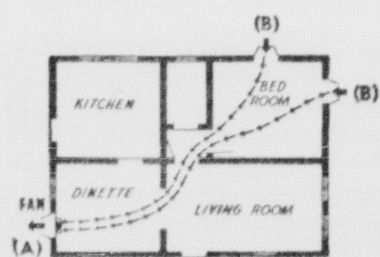

For a complete, FREE survey to determine the right fan for your home, just call your dealer or send in the coupon below. There is no obligation.

Apartment Ventilators Too!

How it works

Place ventilator at window A and plug into regular outlet. Open window B (more than one if desired). Ventilator draws out hot, stale air at A, drives in cool night air through B.

A Thought For Today

And he rested on the seventh day from
all his work which he had made.—Genesis
2:2.

And rest, that strengthens unto virtu-
ous deeds, is one with prayer.—Bayard Tay-
lor.

Why Not Investigate Lindbergh?

Some time ago Secretary Ickes made a speech
intimating that Col. Charles A. Lindbergh was a
nazi sympathizer. Worse than that have
been said about the flying colonel. There are hints
that he even is a paid mouthpiece of Hitler.

Taking cognizance of the Ickes speech, Lin-
dbergh called upon President Roosevelt to do some-
thing about the secretary with the galloping tongue.
Presidential Secretary Early admitted that Lin-
dbergh's message had been received at the white
house. But, he added, the letter really was writ-
ten to newspaper correspondents although ad-
dressed to the executive. If Mr. Roosevelt has done
anything to curb the Ickesian flow of nouns and
adjectives, we were not of it.

Now it is a serious thing if Lindbergh actually
is in the pay of Herr Hitler or the burd. If Lin-
dbergh is trying to turn the United States over to
Germany, something must be done about it quickly.
It is not enough merely to point the finger of scorn

while letting him go his alleged nefarious way. If
that is permitted it would enable him to gather
regiments of followers if he wants to, and if such
potential regiments exist. Who knows but that if
Lindbergh is a follower of Hitler, he might have
armed mobs scattered all around the country—or
even airplanes ready to drop bombs on St. Louis?

There are four organizations in the United
States capable of investigating Lindy thoroughly,
to see whether he has nazi ants in his pants. The
F. B. I. could make an excellent start. The house
of representatives is able to worm out secrets, and
at such a task the Senate has no peer. At the last,
if the F. B. I., House and Senate fail, then turn
him over to the Dies committee. Better still, or-
ganize a joint investigation in which all four will
participate.

We are not trying to charge Lindbergh with
being a subversive element. But we are entitled to
protection from the aerial colonel if what Ickes
hints at is true. If Ickes is right, Lindy should be
exposed. If Ickes is wrong, he should apologize.

Why Must Growth Be Slowed?

From the census bureau comes an estimate
that population growth of the United States will
decline slowly within the next few decades. In
the period between 1930 and 1940 the increase
was 7.2 per cent. Between 1970 and 1980 the
growth will be only 1.2 per cent, regardless of the
fact that our territory is capable of supporting per-
haps 300 million people.

Reasons for smaller birth rates are always
interesting. France suffered a falling birth rate
for decades. In some quarters this drop in the birth
rate was blamed for France's recent military cas-
astrophe. Others, however, blame economic con-
ditions for both the reduced birth rate and the mil-
itary defeat. There is something to that idea.

It is said that ordinarily a young, vigorous coun-
try as a high birth rate. By a young, vigorous
country is meant, perhaps, a country that provides
opportunities to earn a living so children can be
supported.

NEWS BEHIND THE NEWS

By PAUL MALLON
(Distributed by King Features

whole or in part strictly prohib-
ited.)

Washington, July 28.—The Jap-
anese grab of Indo-China appear-
ed on its face to be a Hitler-
made trick, worked through
Vichy. People generally have so
considered it, but not the top-
men of Roosevelt's diplomatic
staff.

They have direct information
which leads them to believe the
Tokyo cabinet was moved by al-
most wholly selfish opportunist-
ic reasons. The primary consid-
eration was to get another most
easily available stepping stone to-
ward Asiatic domination. Some-
day the Japs want to work north-
ward, but not until the soviet be-
comes too weak to resist. The
south was undefended. The seiz-
ure could be accomplished without
military risk.

Only after those two sufficient
reasons had been established did
the Japs consider the nazi inter-
est of diverting U. S. and British
attention, according to this in-
formation. In fact, some Jap
cabinetiers opposed the step for
this reason.

Everything inside here indicates
the Japs are, in fact, mildly cut-
ting themselves loose from the
Berlin axis and striking out on
their own. If this interpretation
is correct, there will be no Jap
attack on Singapore, the Dutch
East Indies or the Philippines.
They would only occupy and con-
solidate their current ill-gotten
gain, while awaiting a similar op-
portunity to sneak the next one
without a fight (the same kind of
game Russia played with Hitler
before she was attacked.)

If this runs counter to much
that you read and hear, remember
a diplomatic war of nerves is be-
ing played around the event.

A far different version of the
Red-nazi struggle than has been
offered in the official commu-
niques is reaching the authorities
of this government.

Last Sunday night, for instance,
while radio commentators were
making listeners feel good with
announcements that the second
Hitler drive had failed ("The Rus-
sian army is as strong as when
the fray started", one said), a
map of the actual situation was in
circulation among officials.

It showed the Russians holding
three giant pockets behind the
German lines, completely sur-
rounded, but with food and ammu-
nition sufficient to last for weeks
without communications. Largest
of these pockets was south of
Luga, controlling sections of both
railroads going north to Lenin-
grad. Another was at Smolensk.
Although the German line had
passed east of Smolensk and the
advance guard was actually with-
in 100 miles of Moscow, never-
theless the Russians still con-
trolled the Smolensk rail head
and the terminus of a four-lane
highway leading to Moscow.

The third pocket was at Kiev,
where the nazis had also passed
around the Red city army clinging
to the rail junction.

From these facts, it was evi-
dent rosy interpretations were out
of order for either side. The Reds
were working a new military
strategy employing suicide pocket-
ets of their troops around the
most important railroads on a
large scale (the Luga pocket was
supposed to contain a couple
hundred thousand Red troops.)
How this would work out was
anybody's guess, but the Ger-
mans were clearly in the best
strategic position.

Sec. Knox Appeals for Decision Now to Defend Nation

Fort Sheridan, Ill., July 29.—
(AP)—Secretary of the Navy
Knox called last night "for a de-
cision now—a decision that, come
what may, we shall resist to the
utmost any and every assault
that is made upon us, and we will
make due preparations to meet
any and every threat of force that
is pointed in our direction."

He told the Legion of Valor, an
organization of army and navy
men decorated for bravery, that
the longer the nation delayed the
more difficult the task when it
faced reality.

"And face it we must. Not by
our choice, but by the sheer pres-
sure of events," Knox said. "We
can possibly postpone decision—
postpone it until the chances of
successful resistance are far less
than now, but we cannot avoid
decision."

"We will have to come to it
sooner or later. We must make
the same two decisions which, at
one time, confronted every mem-
ber of the Legion of Valor. Have
we something worth fighting for?
Have we the courage to fight for
it?"

After referring to conditions in
Europe, on the high seas and in
the Far East, Knox said that "in
times of peril like these, there are
still a few Americans who profess
to see no dangers for us; a few
Americans who would disband our
half-trained army in the face of
such dangers; a few Americans
who protest when we add to our
security against attack by the oc-
cupation of strategic vantage
points which would help us con-
trol the seas that wash our
shores."

the attendance being the largest in
the history of the organization.
Rev. S. R. Maguinezz, presiding
elder of the district, commended
the fine program which was ar-
ranged for the gathering and the
hospitality extended by Dixon's
citizens. The Rev. Charles Enoch,
pastor of the Dixon church, was
a tireless worker in making the
convention the fine success.

Mayor William V. Slothower
delivered the address which wel-
comed the delegates to the con-
vention and Mrs. John G. Ralston
was featured on the program, giv-
ing an interesting talk. Delegates
also enjoyed an automobile tour

New World Full of Opportunity Being Born, Ford Declares

Veteran Manufacturer
Gives Interview on
Eve of Birthday

Detroit, July 29.—Henry Ford
believes a person "even 90 years
old can start at scratch and make
a great success—if he or she will
face forward"; he believes also
that "right now a new world is
being born—a very different
world."

The man whom success eluded
until he was past 40 years of age
made these assertions in a state-
ment today as he prepared to ob-
serve his 78th birthday anniver-
sary quietly aboard one of his lake
freighters tomorrow. With Mrs.
Ford he will go to the Ford north-
ern Michigan lodge for their cus-
tomary mid-summer vacation.

"Contrary to what appears on
the surface," Ford said, "this war
is bringing the people of the world
together as never before. It
touches every race and people on
earth. They're beginning to see
that you can't build anything per-
manent on hate."

Ford said the new world he vi-
sualized "will hold opportunities in
kind and number such as the
world has never seen before."

Like Spring Thaw

"What's happening right now
is like the spring breaking up the
winter's ice," he said. "The new
world is surging up from below.
And it will be filled with oppor-
tunity for everybody who can stop
looking backward, face about and
go forward. Why, a person even
90 years old, if he or she will face
ford, can start at scratch and
make a great success."

Ford predicted an era of great-
er tolerance and of tremendous
employment—"if competition re-
mains active." The development
of the plastics industry which
would more closely ally the farm
with the factory, he said, would
produce employment for millions
of people on farms and in factories,
and tremendous expansion of
aviation also would require addi-
tional millions of workers.

"For years," he said, "we've
been making things out of soy-
bean plastic. But we wish to go
a great deal farther in developing
an industrial market for the Amer-
ican farm. We're developing a
plastic based on wheat. We've
found more than 40 different el-
ements in wheat, all of which can
be used industrially."

Dodgers' Chances May Depend Upon Series This Week

Wobbling Brooks Open Against Cardinals in St. Louis Today

By BILL BONI
Associated Press Sports Writer
Wobbling on both their hitting and their pitching legs, the Brooklyn Dodgers moved into St. Louis today for what may be the "make or break" series of their National League pennant aspirations.

Just two weeks ago these Dodgers were in first place, enjoying a four-game margin over the Cardinals. Then the hard-running, hard-hitting, ever-scraping Redbirds moved into Ebbetts Field, beat the Dodgers in both contests of a short series, and started them on a to-boggan slide that has them two lengths back of the Cards.

The source of this present Dodger dilemma seems to be a combination of things, including pitchers who haven't been able to hold leads, hitters who haven't given enough, and apparently, lack of sufficient youth such as is sparking the Cardinals and the oncoming Pittsburgh Pirates.

Up to that fateful July 15 Whit Wyatt and Kirby Higbe, with the help of Hugh Casey, were moving down the batters in fine style. But not one of the three has been able to win since, and the only three victories in the Dodgers' 12 tilts in those two weeks have been credited to Curt Davis and Mace Brown, in relief roles and to Luke Hamlin, who needed help from Higbe.

Over the game stretch in which Brooklyn has lost nine and won three, the Cardinals have won nine and lost three, even though Ernie White has been the only St. Louis pitcher able to go the route.

Yesterday's major league holiday, in addition to giving time to study the Brooklyn plight, also gave the statisticians a chance to collect some new figures on the New York Yankees. These latest are attendance figures, which show that in 41 home dates the American League leaders have averaged 19,569 paid admissions. With 32 at home still to be played, they may better the Yankee Stadium record of 1,200,000.

One Minute Interview

Private Hugh Mulcahy, Camp Edwards, Mass. "Even life with the Phillies was easier. But I can't complain. I've thought the whole thing over many times, and I've come to this conclusion: Every man owes his country a year."

Mike Jacobs' hopes of signing Booker Beckwith, Chicago K. O. artist, have gone a-glimmering. The negro heavy is tied up with Billy Rand, Chicago promoter, for five years.

Three National League clubs—the Boston Braves, Cincinnati Reds and St. Louis Cardinals—averaged better than one double play per game the first half of the season. The Braves, with 86 twin kills in 80 games, set the pace.

Background

Chicago, July 29.—(AP)—Maybe it was just a whim and maybe it wasn't, but the fact remains that the Chicago Cubs have perked up since they were given a dark background to hit against in Wrigley Field.

For years the Cubs complained of a difficulty in following the ball from the pitcher's mound to plate because of the white shirts in the centerfield bleachers.

Finally, General Manager Jim Gallagher blocked off three sections in which seats are not sold and painted the chairs dark brown.

Since then the Cubs have won seven of the nine home games, collected 48 runs on 87 hits—an average of better than five runs and nine hits a contest. Over this stretch, only one opposing pitcher went the full distance against the revived Cubs.

Connie Mack's Men May Finish in Fourth Place, Even Higher

Philadelphia, July 29.—(AP)—After seven lean years Connie Mack and his Athletics may finish in the American League first division, the first step on the way back from the cellar to the former glories of the 1910-14 and 1929-31 championship eras.

Victorious in seven of their last eight starts, the A's now are virtually tied with the Chicago White Sox for fourth, a fraction of a percentage point favoring the Sox. The argument between the two clubs will be decided in a three-game series opening today.

Wise old Connie and his players feel they will dispose of Jimmy Dykes' club. They then plan to overhaul Boston for third place.

"If we go that high," declared Connie, "we can make second. The Yanks are the class of the league but from second place to fifth it's anybody's race."

Not since 1933 when the Mack-men finished third have they been as high in the race at this stage of the campaign.

Widow of Rufus C. Dawes Dies Monday

Chicago, July 29.—(AP)—Funeral services will be held tomorrow for Mrs. Helen Palmer Dawes, 72, widow of Rufus C. Dawes, utility executive, banker and civic leader.

Mrs. Dawes, a native of Washington Court House, Ohio, died last night in St. Luke's hospital after a short illness.

Dawes, who was president of Chicago's Century of Progress Exposition in 1933-1934, died in January, 1940. He was a brother of former Vice President Charles Gates Dawes.

Survivors of Mrs. Dawes included three sons, William M. DuBogue, Jr., Palmer, Jacksonville, Fla., and Col. Charles C. Dawes, of the 202nd coast artillery, El Paso, Tex., and three daughters, Mrs. Beverly Jefferson of suburban Barrington; Mrs. Louis F. Watermuller, Chicago, and Mrs. Robert T. Sherman of suburban Winnetka.

Cobb and Ruth Resume Golf Contest in Heat

Detroit, July 29.—(AP)—The heat was on in more ways than one as Babe Ruth and Ty Cobb, the former baseball heroes, reached the clutch point in their golf match series today.

All square at a victory each, the two southpaws met in their rubber match at the Grosse Ile Country Club and the way the thermometer was acting it was a cinch that both would enjoy reaching the 18th hole.

Temperatures high in the 90's were indicated, with Detroit in the grip of the summer's worst heat wave.

The match of 18 holes was arranged to start in late afternoon, and some of the hot sun probably would be avoided. Cobb won the first match in Boston, 3 and 2, while Ruth squared it in New York, one up on the 19th hole.

Voting For College All-Star Team Ends at Midnight Today

Final Results To Be Announced Thursday In Chicago

Chicago, July 29.—(AP)—Final results will be announced Thursday in the nationwide poll to select the college All-Stars to meet the Chicago Bears in Soldier Field Aug. 28.

The contest will end tonight at midnight, all votes bearing a postmark before that time being included in the count.

The final flood of votes possibly may change the standings of the leaders, but as the contest now stands the starting lineup will include ends and backs from the mid-west and tackles, guards and center from other sections. The squad will consist of about 60 players, but the starting lineup will be the players polling the most votes at their respective positions.

The poll leaders:
Halfbacks—Harmon, Michigan, 989,114; George Franck, Minnesota, 948,752.

Fullback—Paskvan, Wisconsin, 761,947; Piepul, Notre Dame, 728,112.

Quarterback—Evashevski, Michigan, 874,563; Paffrath, Minnesota, 821,596.

Ends—Rankin, Purdue, 824,507; Ruessli, Indiana, 729,694.

Tackles—Drabos, Cornell, 776,828; Pannell, Texas Aggies, 684,397.

Guards—Lio, Georgetown, 954,266; O'Boyle, Tulane, 825,581.

Centers—Mucha, Washington, 823,417; Gladchuk, Boston College, 784,193.

Howe's Rock Falls All-Stars Finally Beaten in Tourney

Kewanee, Ill., July 29.—(AP)—The state semi-pro baseball tournament tonight will bring together two undefeated teams—Chicago Palmer House All-Stars, defending champions, and Gipsy Brewers of Peoria.

Gipsy Brewers have won three games and the Chicagoans two.

The other game will pit Andover Swedes against Hiram Walkers of Peoria. Each team has lost one game and won one, the loser tonight thus being eliminated from the tourney.

Kewanee, the only other undefeated team in the steadily dwindling field, registered its third straight victory last night, eliminating Howe's All-Stars of Rock Falls from further play, 6 to 4.

The Parkers tied the score in the seventh only to see Rock Falls move ahead again in the eighth. Kewanee retaliated with a game-winning rally in the ninth that produced two runs.

This was the only game scheduled last night.

But One Unset Monday in Meadow Club Play

Southampton, N. Y., July 29.—(AP)—Frank Kovacs, who plays his tennis on a one-day-straightman, one-day-comedian schedule, is playing it straight for the moment—or so it would seem.

At least Lank Franky was giving all he had yesterday in his opening match in the annual Meadow Club invitation tournament. He didn't bite a single tennis ball, but he did a thorough job of beating Vincent Paul of Brooklyn.

The comic relief, for a change, was furnished by Bobby Riggs, seeded No. 1, ahead of Kovacs, was matched with 55-year-old Dr. William Rosenblum. He could have won as he pleased. Instead he dragged the first set to 12-10. Then mercifully smothered the veteran, 6-2 in the second.

The only surprise was the elimination of Eddie Alloo by Bill Gillespie, 20-year-old senior at the University of Miami.

Berwyn Beats Eureka for Junior AL Title

Kankakee, Ill., July 29.—(AP)—The payoff is on good pitching in Junior American Legion baseball just as it is in the big leagues.

Berwyn, champion of Cook County, is the new Junior American Legion baseball titleholder of Illinois, winning the championship from Eureka on two well-pitched games.

Eureka took the series opener Saturday, but in the Sunday and Monday games Berwyn was the easy winner by 11 to 1 and 9 to 1 scores. Two home runs accounted for all of Eureka's run-making after the first game.

JULY SPEEDS UP BUGS

Movement to start the National League season July 4 would get a heavy play in Pittsburgh. First place July 4 has meant pennant only 3 times in the last 12 years—1931, 1933, and 1939—but the first place baseball for the Pirates the past 3 years straight.

Until they lost 2 straight to the Giants July 13-14, Frank Frisch's team had won 13 out of their last 16 games, which is 813 Pct. Last year July 4 started a Pirate victory wave which chalked up 16 wins against 6 defeats, a 727 rate of progress. In '39 they lost 4 of 5, and in '40 they lost 18 of 20.

The trend is getting more pronounced each year. If they start the 1942 season on Independence Day, the Corsairs will break from the barrier flying.

Three Top Teams in Ill Loop Win Last Eve's Games

(By The Associated Press)

The top teams in the Three Eye League—Evansville, Cedar Rapids and Decatur—fought on at the expense of the three lowest ranking clubs last night in a general round of free-hitting contests.

Evansville protected its four-game first place lead with an 8 to 7 conquest of Waterloo, squelching the seventh-place club's ninth inning rally just in time.

Cedar Rapids piled up an early lead and coasted to a 9 to 3 decision over Moline's basement crew. Reynolds gave up only seven hits and had little trouble after the second inning.

Decatur splashed across seven runs in the first inning and went on to a 10 to 4 victory over Clinton, holder of sixth place. Clinton got 12 hits, one more than Decatur, but Davis pitched smart ball in the pinches for the Commies.

The Springfield-Madison game was moved up to allow Madison to engage the Chicago Cubs in a twilight exhibition battle. The Cubs finally won in the 13th inning, 7 to 5, after tying the score in the ninth. Tot Pressnell's single produced the tow decisive runs.

Dean Figures Most of Present Batters Would be Set-Ups

Kansas City, July 29.—(AP)—The telephone buzzed:

"Shucks," explained ex-pitcher Dizzy Dean a moment later, "it was another guy who says he can cure my pitching arm. There are guys in all parts of the United States and Canada who say they can cure my arm."

"I can't go to all of them—and anyway, I'm tied up with this broadcasting business for two and a half years."

After that Dizzy admits he might be willing to try his luck on the mound again.

He hurled one full inning last night in an old-timers contest and escaped without being scored upon, although touched for several hits by grace of his fielders' waistlines.

Despite his professed love for his new task, Dizz said he wished he had his pitching career to do all over again.

"Boy, it would be a breeze pitching to some of the birds swinging bats now. Why some of these kids look like they are just out of school and wouldn't have dared pick up a bat when I was playing."

Golfdom Will Crown Its Champ This Week

Grand, O., July 29.—(AP)—Golfdom will unofficially crown its world champ here this week-end in a 72-hole battle between the two major title-holders.

Personable Craig Wood, National Open king, and broad-shouldered Vic Ghezzi, winner of the P. G. A. tournament, tangle in the match play test over the Mahoning Country Club course Saturday and Sunday.

Besides the "world championship," the victor will pocket \$2,500.

Zivic and Cochrane Will Try This Eve

Newark, N. J., July 29.—(AP)—Champion Fritz Zivic and challenger Freddie Cochrane hope to keep their world welterweight title date tonight at Ruppert Stadium after four postponements.

A heavy downpour yesterday caused a 24 hour delay of the bout. New Jersey's first championship in more than five years. It originally was scheduled for May 26 but was postponed three times after Zivic incurred an arm infection.

FIGHTS LAST NIGHT

(By The Associated Press)
Pittsburgh—Moose Brown, 170, McKeesport, Pa., knocked out Jimmy Webb, 169½, Houston, Texas, (2).

Chicago—Joe Maxin, 17½, Cleveland, defeated Johnny Trotter, 17½, Chicago, (8).

Baltimore—Buddy Walker, 197, Columbus, Ohio, outpointed Johnny Kapovich, 185, Baltimore, (10).

North Little Rock, Ark.—Bob Sikes, 190, Pine Bluff, Ark., defeated Buddy Knox, 191, Dayton, O., (10).

New Orleans—Harry Weekly, 135½, New Orleans, outpointed Quentin Breeze, 138½, Manhattan, Kan., (15).

DID YOU KNOW THAT—

Four National League pitchers in this year's fighting forces each had a great season in which he led the league in win-loss percentage and in the earned run averages?

Charlie Root in 1929; Lonnie Warneke in 1932; Carl Hubbell in 1936; Bill Lee in 1938.

After 2 successive years as the National League's leading pitcher in representing himself by enemy batsmen, Claude Passeau is out after the slugging record himself. Before the Cubs had played half of their season's games, tall Claude had hit 3 homers personally and was half-way along the road to tying the all-time National League record for homers by a pitcher—Hal Schumacher's 6 in 1934.

Hamburg Camouflaged

BEFORE RAF flyers claim this is the Binnener Alster area in the heart of Hamburg before camouflaging. The Binnener Alster is the innermost of two lakes in the center of town. The Lombardsbrücke bridge is a vital road and rail connection dividing the Binnener and Aussen Alsters, and links the two Hamburg marshaling yards.

AFTER The RAF made this picture to show how the Binnener Alster has been camouflaged by means of huge floating rafts to represent a built-up area. A replica of the Lombardsbrücke bridge has been built about 600 yards north of the bridge. Note also light-toned "roads" painted over the railroad station and railway lines treated similarly.

Germany's War Heads for Storied Land of Iran

If Hitler's armies race through southern Russia and veer between the Black and Caspian Seas, they will be at the gates of oriental, oil-rich Iran, next door neighbor to fabulously wealthy British India. Nazi fifth columnists have been active in Iran, but the British are in good position to block the German drive at the two points shown on the map. Then there's the little matter of the Russian armies, which are still holding the swarming invader.

Four pictures are on Welles' tentative production schedule.

KILLED BY LIGHTNING
Granite City, Ill., July 28—(AP)—Mrs. Emma Jenkins, 34, was killed by lightning yesterday as she attempted to close a window during a storm.

JUST RIGHT!
Liza, the negro cook, answered the telephone one morning and a cheerful voice inquired, "What number is this?"

Liza was in no mood for trifling and said with some asperity, "You-all ought to know. You done called it!"

Air Mail Service for Rochelle

The Mercury Development Corporation of Indianapolis, Indiana, is making application to Washington, D. C. to establish a United States Air Mail pick-up and drop service twice daily to Rochelle. All interested in securing that service for Rochelle are asked to write a letter to that effect to the Mercury Development Corporation, 301 Underwriters Bldg., Indianapolis, Ind. These letters will be presented by them when application is made for the permit.

Rochelle is on the proposed air route between Chicago and Rochester, Minn. Freeport and DeKalb are two cities which will also receive the proposed service.

In the air mail pick-up service, the outgoing mail is suspended upon an elevated wire, and caught by a grappling hook as the plane flies over. Incoming mail is dropped.

Farmers' Picnic Aug. 28
